

SIDE

TOP

Padding shall be cellular construction with a skin of an average minimum thickness of 3/50". The skin shall be produced integral to the cushion using a self-skinning molding process. The tear strength of the skin shall be a minimum 125 psi. The two-piece padding system shall be capable of mounting to all brands and styles of front mount or rear mount glass, steel, and cast aluminum fan-shaped backboards by means of bolts (provided). A steel track molded into the padding shall provide rigidity and strength to the mounting system. Padding system shall be available in official gray, royal, scarlet, and black. Colors shall be continuous throughout the thickness of the padding, not only on the skin. The unconditional replacement warranty shall extend for five (5) years and cover tearing and deterioration, as well as detachment from the backboards. Each kit shall weigh 5#. Installation to be completed in accordance to manufacturer's instructions. Do not scale drawings.

## PRODUCT SPECIFICATION

BA68F DuraSkin Fan-Shaped Bolt-on Backboard Padding
